The new MHZ DUETTE® honeycomb collection is captivating with its stunning designs, select colours, textile patterns and exquisite fabrics.

The 3 exclusive "created by nature", "inspired by graphic" and "passion of colours" pattern ranges form the heart of the new collection. These large-format yet sophisticated patterns will liven up your rooms with vibrant colours, nature-related elements and graphic interpretations.

High quality fabrics fulfil the need for a pleasant and cosy atmosphere while their special honeycomb pattern has a positive impact on energy balance and room acoustics and creates a better indoor climate.

Overall, the new MHZ DUETTE® honeycomb blind collection impresses with 16 new designs, 200 high quality fabrics in modern natural shades, classic colours, special colours and Scandinavian hues. There are up to 36 colours available depending on the fabric quality. Virtually all fabrics have the wow factor with their uniform honeycomb look: The shorter reverse side helps maintain the honeycomb pattern on the hanging and ensure that it always hangs perfectly even in large blind units.

Explore the variety that the new MHZ DUETTE® honeycomb blind collection has to offer and see how aesthetics and function combine.

HIGHLIGHT: PATTERNS

The unique patterns of new and exclusive design ranges blend into your rooms like works of art. Enjoy the feeling of extra cosiness.

inspired by graphic

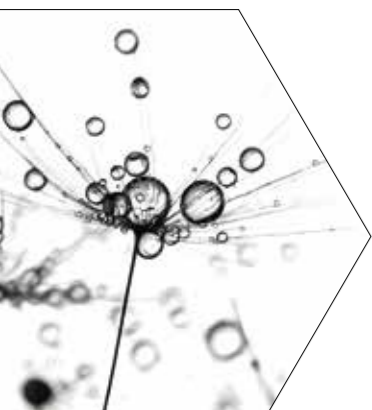

Whether you opt for the delightful wave look, cubism-inspired patterns or holes down the side, "inspired by graphics" will blow you away with its stunning graphics features. A total of six stunning patterns add accents to a minimalist design style.

created by nature

Six new patterns in the "created by nature" range add a touch of nature to the room. If you like feeling at one with nature, you're bound to find the perfect pattern for you. Choose from plant tendrils, abstract dill blossoms, hydrangeas or a wooded scene.

passion of colours

Splashes of colour or perfectly balanced gradients - the four colourful "passion of colours" patterns draw attention to any interior design style as a vibrant feature.

THE FLAMBOYANT "PASSION OF COLOURS" RANGE EXPLODES WITH ZEST FOR LIFE, CREATING AN EYE-CATCHING FEATURE FOR THAT WOW EFFECT.

With its striking burst of colours and elongating trail of colour, COLOURS embodies harmony and joie de vivre. The pattern is particularly effective on large windows and can be continued across multiple windows.

Hanging	COLOURS 90 cm, W4-6700
Installation	Wall

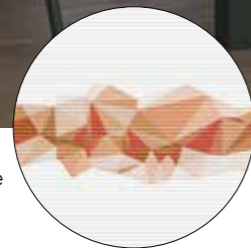

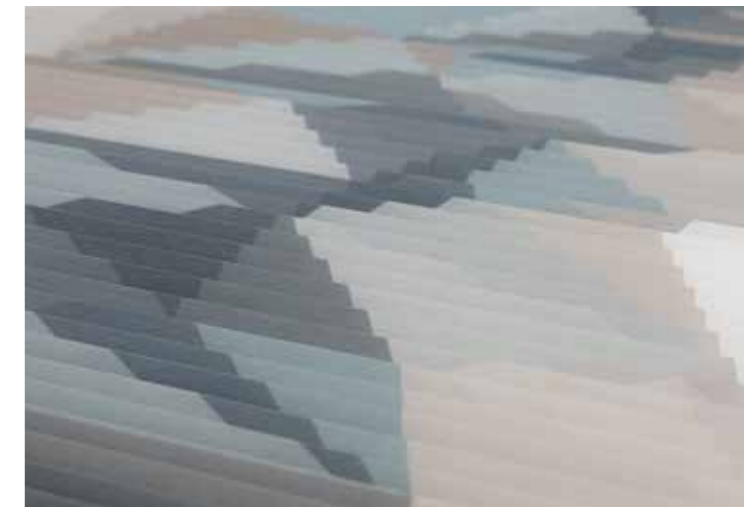

COLOURS

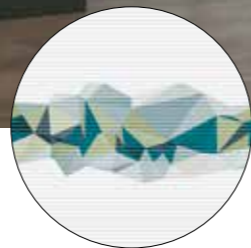

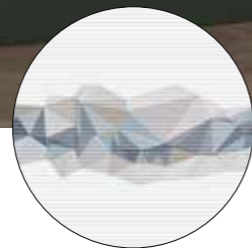

IN ITS THREE-DIMENSIONAL APPEARANCE, THE GEOMETRIC MINIMALIST SHAPES RESEMBLE GOSSAMER-FINE ORIGAMI MASTERPIECES.

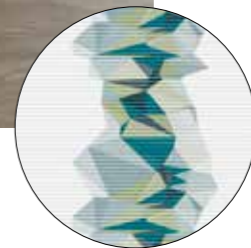

The MOUNTAINS and FACETTE patterns can be arranged vertically or horizontally on the hanging to suit personal taste. Both versions are available in each of the 3 colour combinations.

MOUNTAINS

FACET

Hanging	MOUNTAINS W4-6643
Installation	Wall

GRAPHIC PIXELS BRING MOVEMENT INTO THE ROOMS. THEY ALMOST SEEM TO TWIRL IN DIFFERENT DIRECTIONS ACROSS THE WINDOW AS THOUGH ELECTRIFIED.

CODE is a versatile pattern whose design progression can be distributed across multiple glass façades if required. The pixel distribution can be varied.

CODE

Type	11-8222, taut
Hanging	CODE W4-6620, W4-6720, W4-6670, W4-6770, W4-6771, grey
Installation	Adhesive set

WITH ITS MULTICOLOURED TRIANGLES, ARCTIC TRANSPORTS VIEWERS INTO THE SHIMMERING WORLD OF COLOURFUL CRYSTALS. THIS ON-TREND DESIGN DIMINISHES AS IT GOES DOWN IN A STRIKING COLOUR FADE EFFECT.

The pattern covers the entire unit width and can be aligned from top to bottom or vice versa. ARCTIC is available in five harmonious colour shades and can thus be perfectly tailored to suit your own personal interior design style.

Hanging | ELAN W3-6012 with ELLIPSIS, grey
Installation | Adhesive set

THE OVAL PUNCHED HOLES ARE STRUNG TOGETHER LIKE BEADS ON A NECKLACE AND GIVE ROOMS A SOPHISTICATED LOOK.

The upgrade to the basic ELAN fabric is available in 20 colours. The anthracite and dark shades of ELLIPSIS, combined with the white back, make the high-contrast look particularly effective. The punched holes can be positioned on the left or right or on both sides.

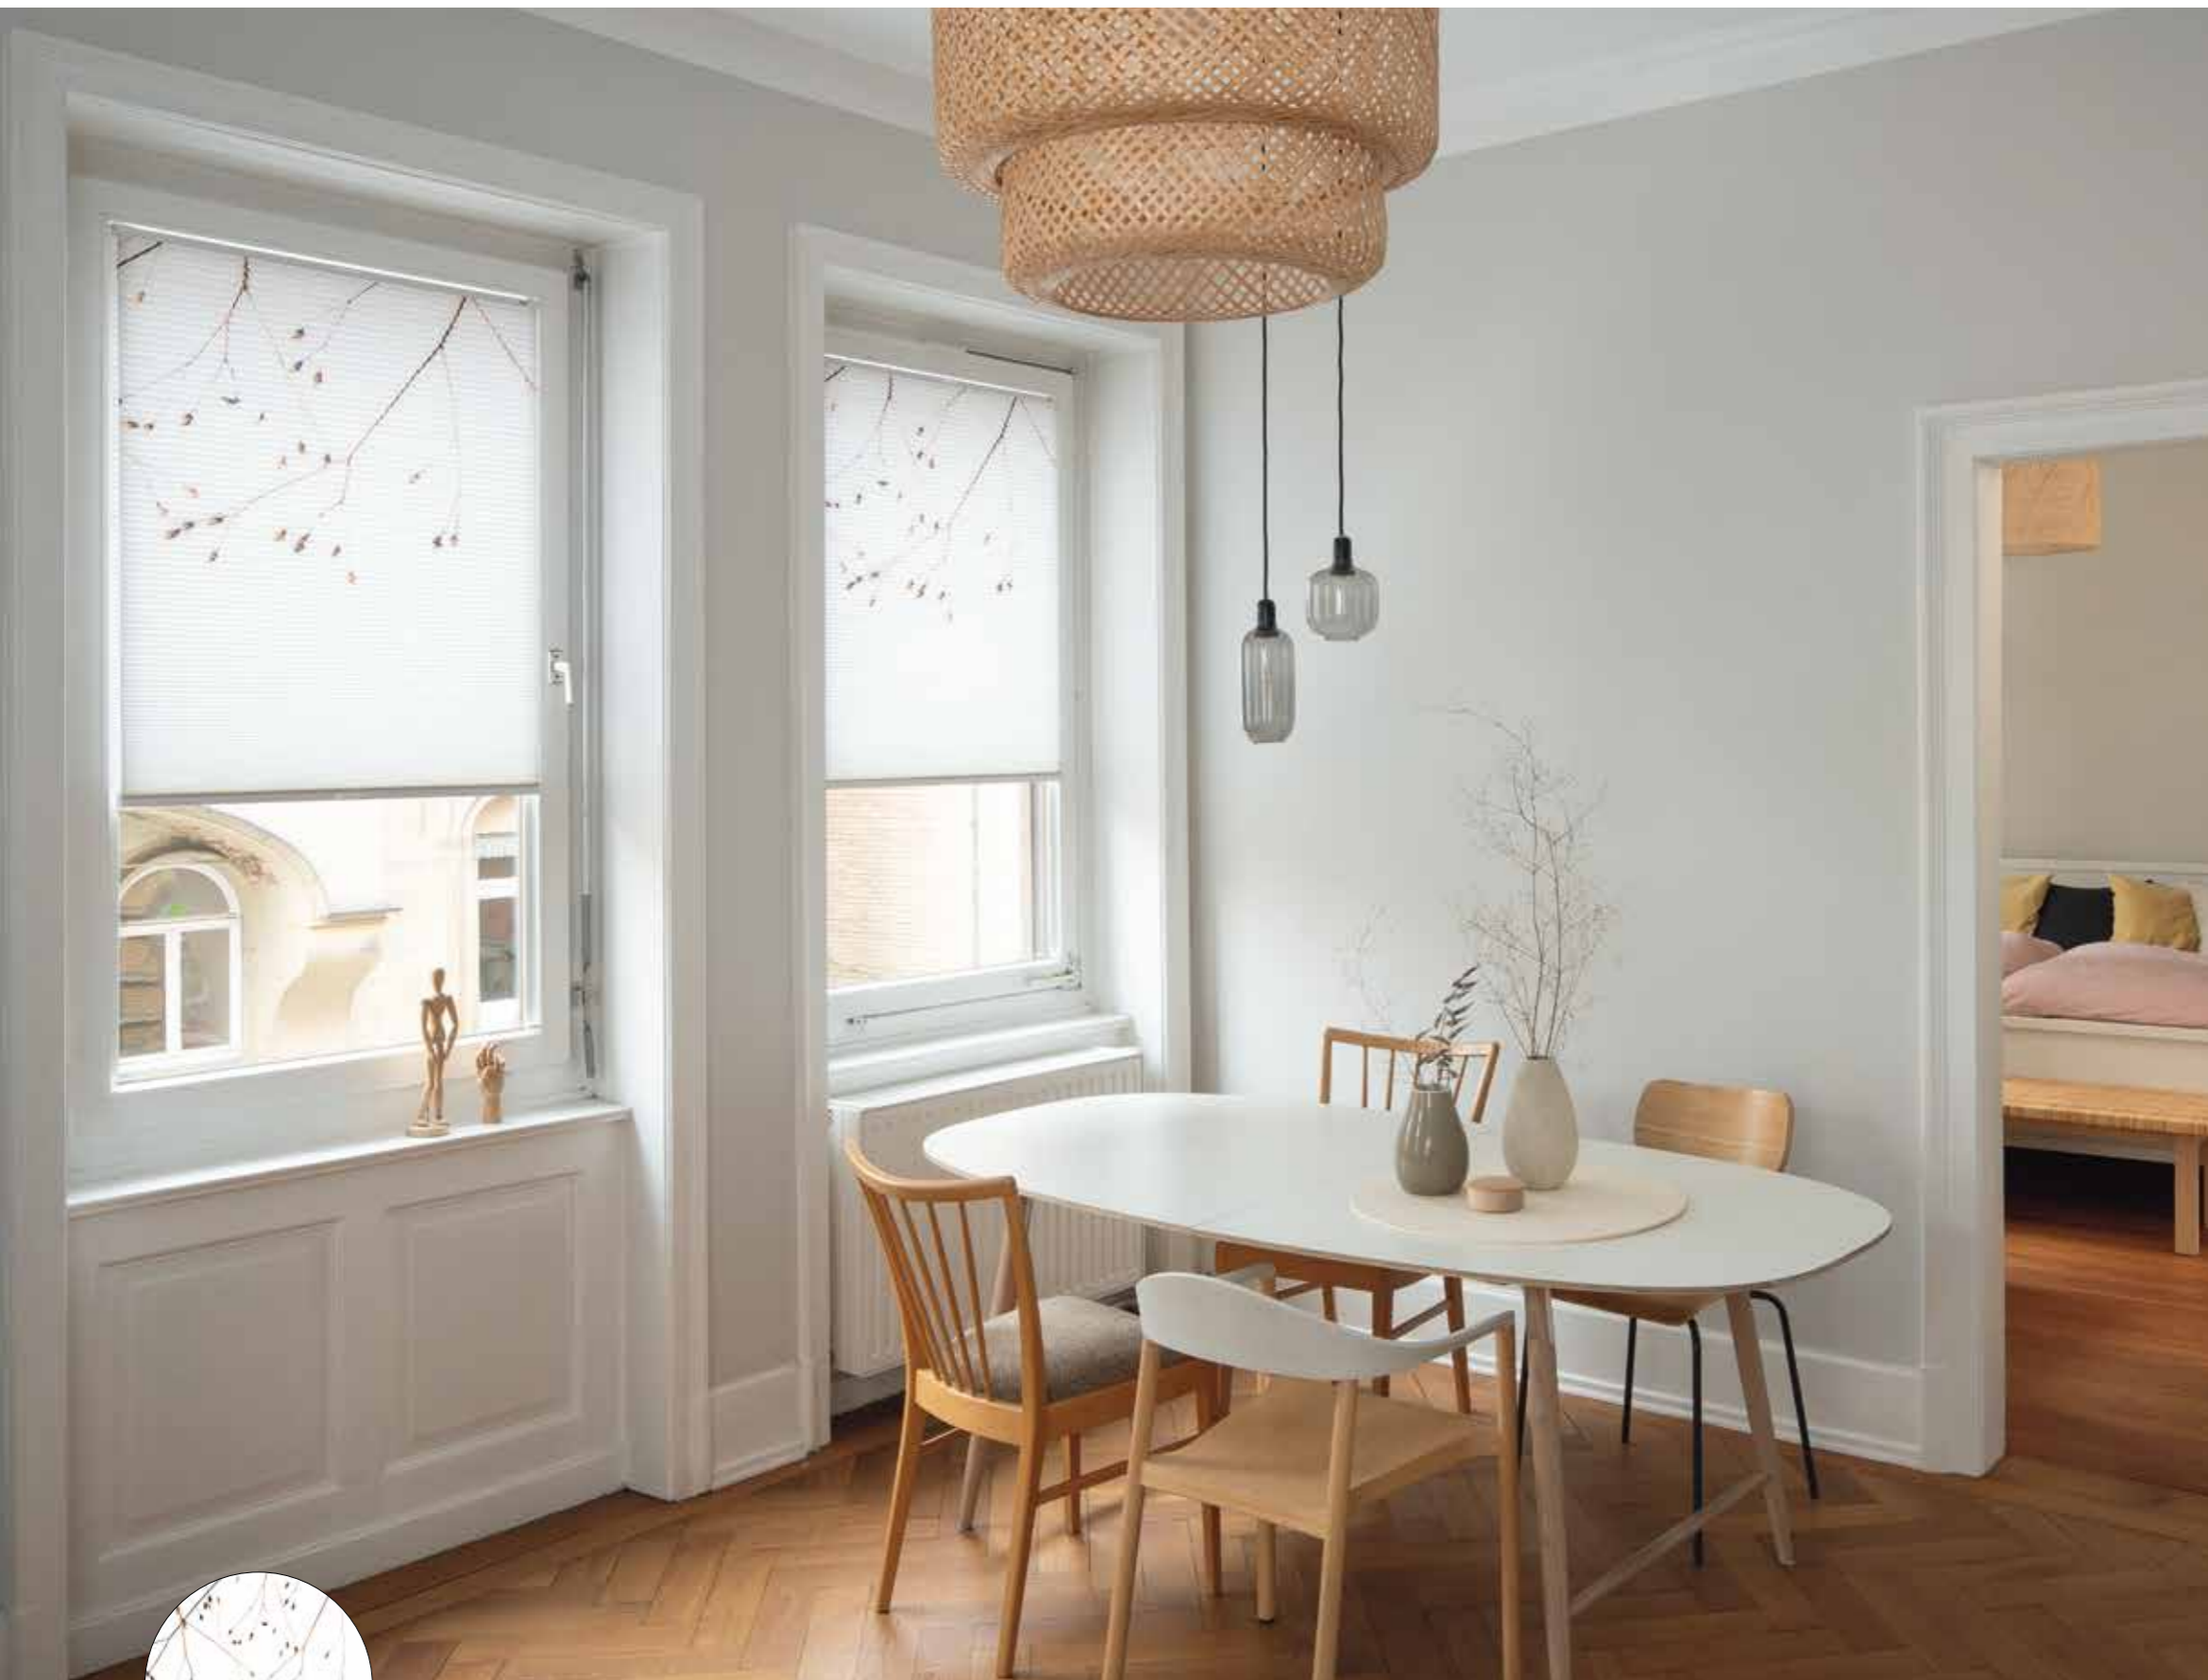

THE ILLUSION OF A PANORAMIC VIEW OF A DELICATE SCENIC SILHOUETTE CREATES A TRANQUIL ATMOSPHERE.

LANDSCAPE is a homage to the beauty of nature. The gentle graduation of blue and white shades is reminiscent of a landscape in watercolour. The subtle colouring highlights a modern and natural interior design style.

A SUBTLE NATURAL LOOK AND DELICATE CHARM: THE INTRICATE FLOWER STEMS COMPLEMENT A SCANDINAVIAN INTERIOR DESIGN.

IDA spans the entire unit width and is available in two pattern sizes depending on the window dimensions. It is recommended to hang the pattern from top to bottom but it can also be used in the opposite direction. IDA is available in the colour combination pictured and thus blends in well with all natural hues and wood tones.

GARDEN BRINGS NATURE INTO THE ROOM - THE SLIGHTLY OFFSET, DELICATE FLOWERS GIVE THE IMPRESSION THEY ARE FLOATING GENTLY IN THE WIND.

The border runs across the entire height of the hanging and can be positioned both on the left and the on the right. With their gentle colour composition in various shades of grey, the wispy blossoms blend well into the Scandinavian country house look.

HIGHLIGHT: TEXTURE AND MINI PRINTS

Suits a modern decor style: The collection features a huge selection of textile fabrics and opaque fabrics in classic contemporary colours.

BAMBOO 25 percent bamboo fibres create an interesting irregularity in the texture. Available in 4 colours.

ROYALE Fine nodules evoke premium wild silk and give the fabric a natural appearance. Available in 7 colours.

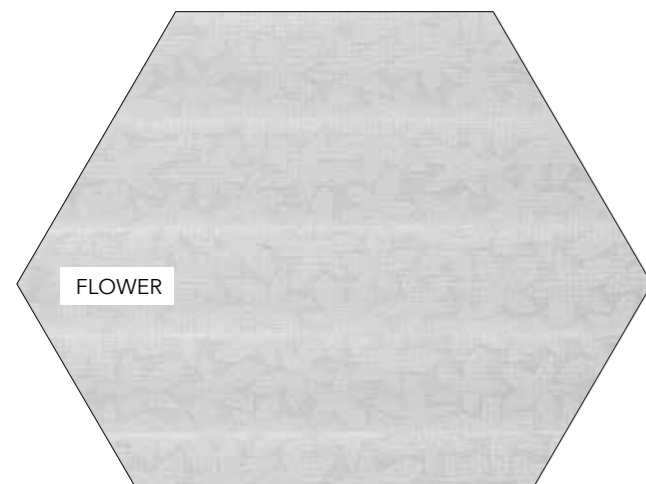

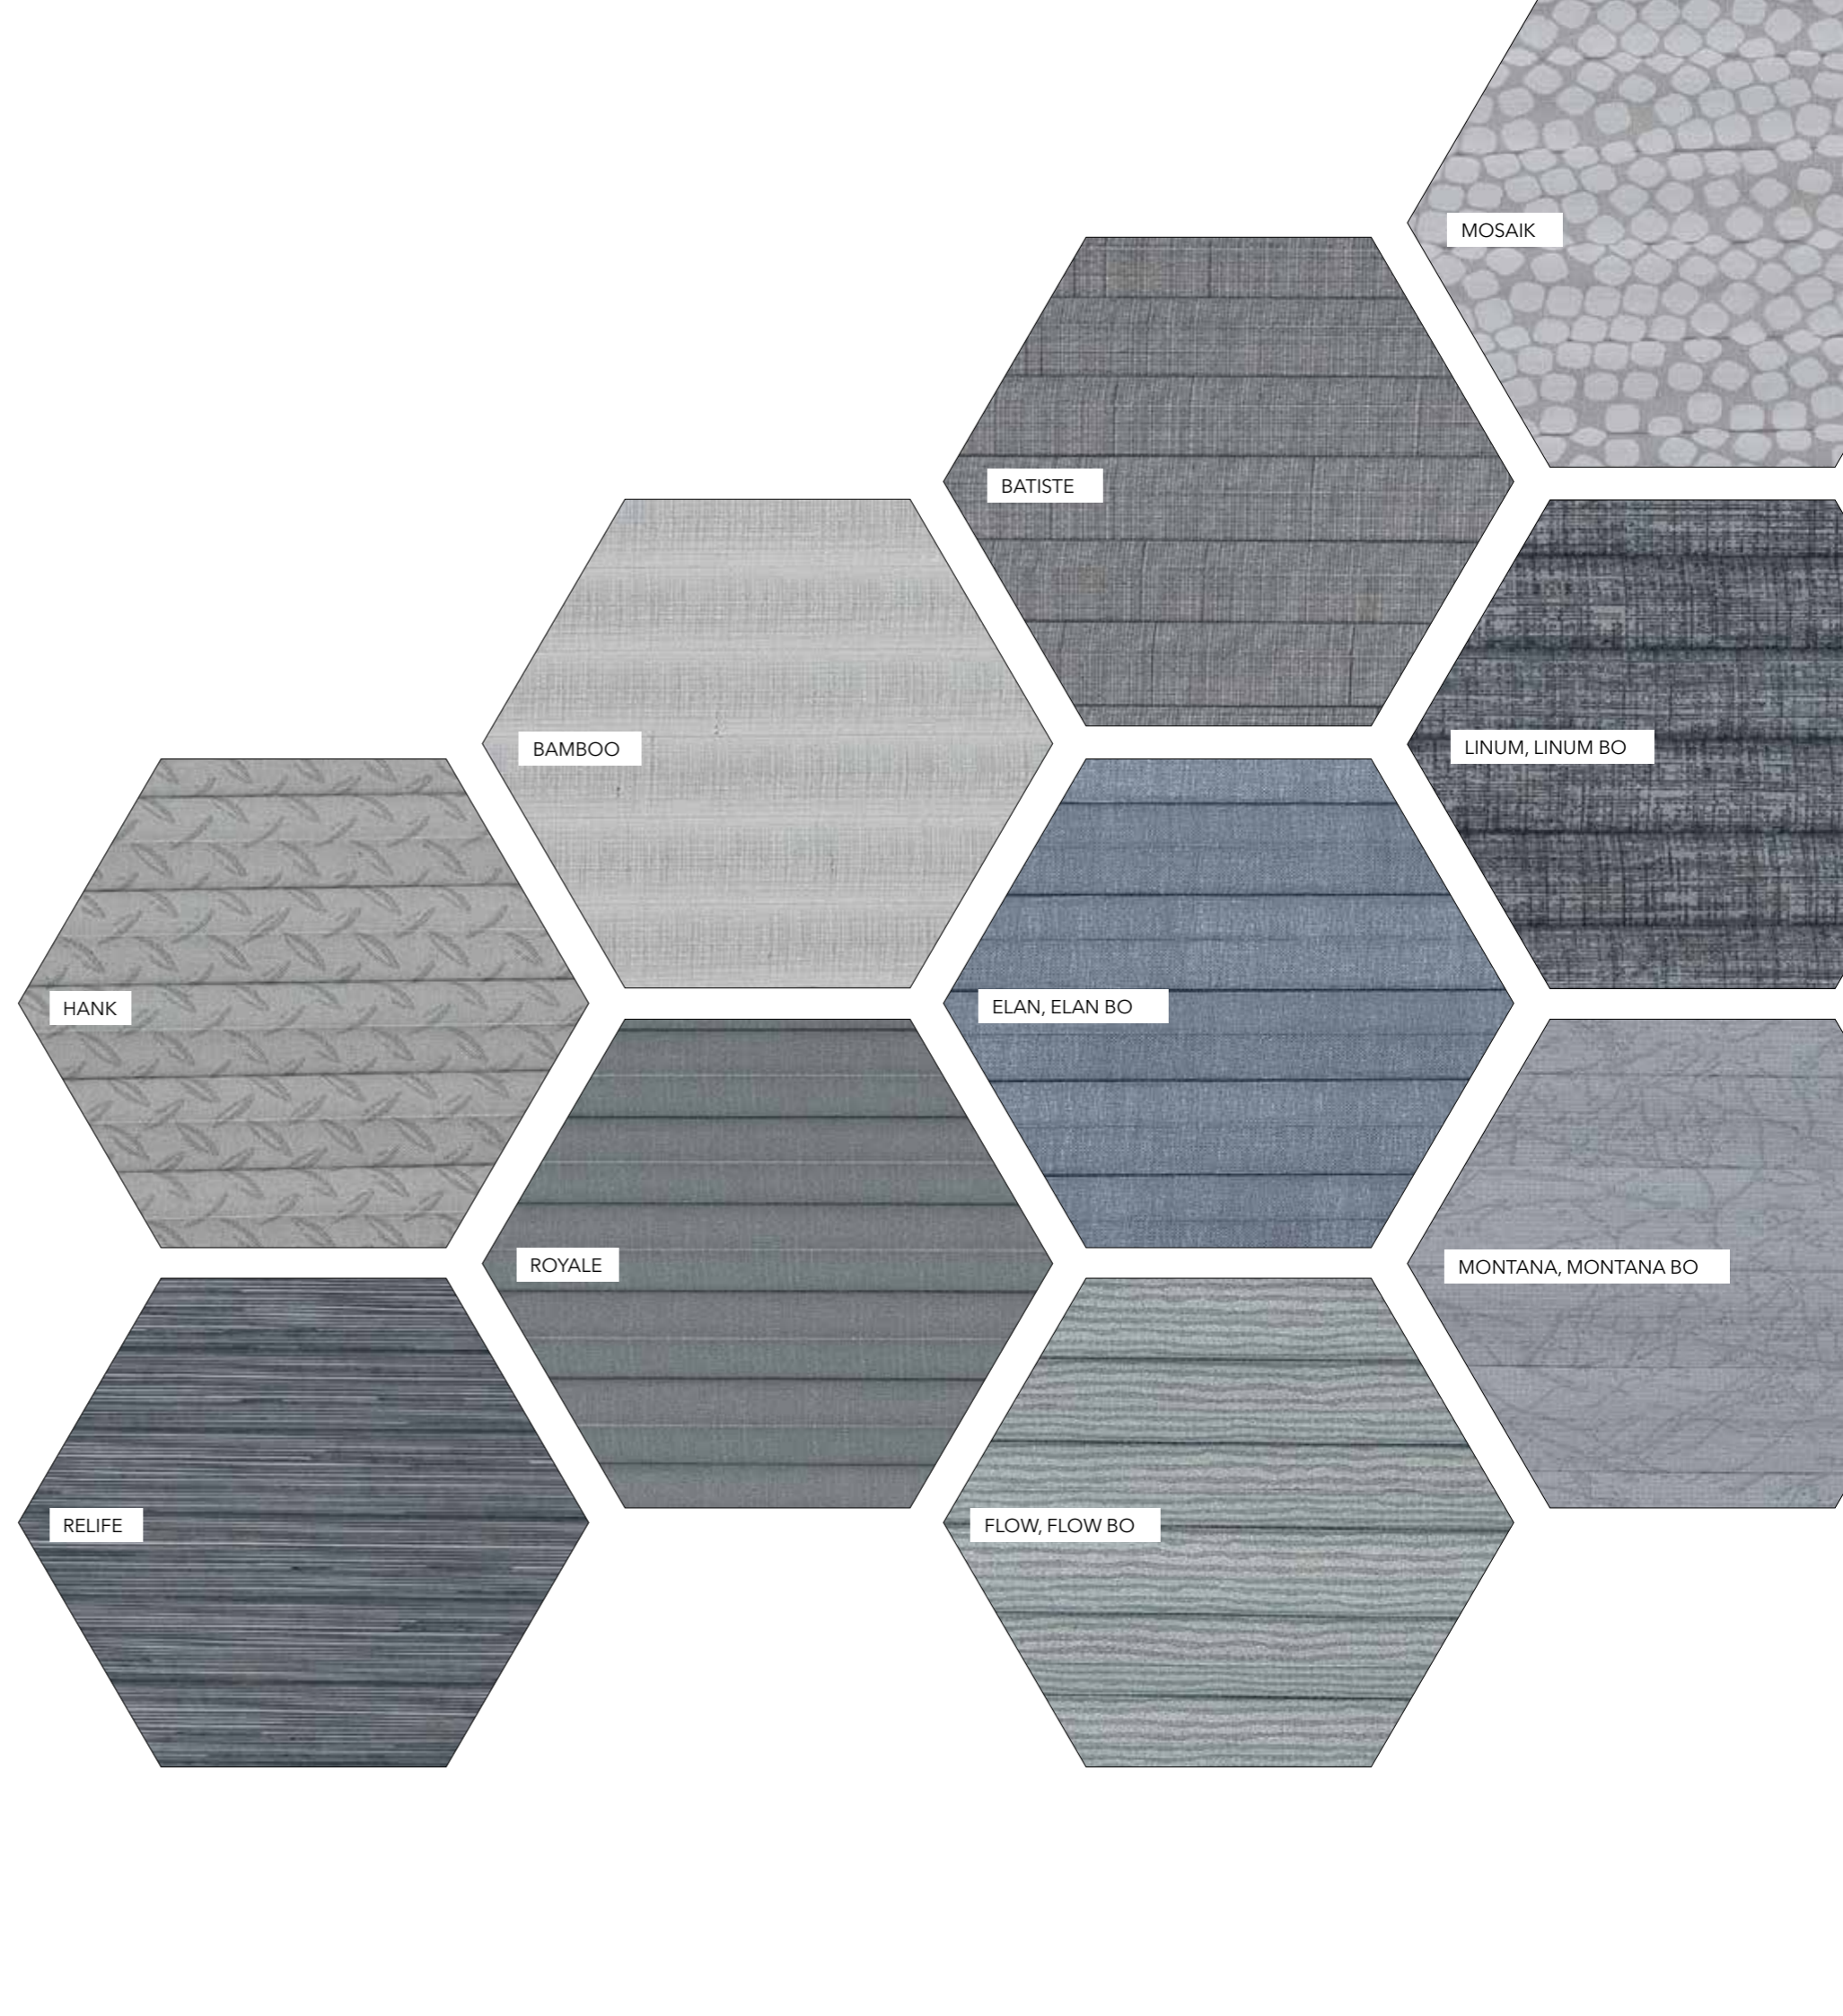

ELAN The basic fabric for large-format patterns impresses with its sophisticated look. Available in 20 colours and with optional **ELLIPSIS PUNCHED** holes.

RELIFE Recycled PET bottles make up 40 percent of this fabric, which stands out thanks to its unusually striking texture. Available in 5 colours.

BATISTE The textile character of the faintly shimmery fabric and the irregular texture makes this fabric a popular all-rounder. Available in 9 colours.

FLOW, MONTANA, HANK and MOSAIK The tiny patterns in the mini prints give these fabrics a gently playful look. Viewed from a distance, the dainty designs merge visually into one fabric with a distinctive texture.

22 |

ECOLOGICAL REQUIREMENTS IN THEIR MOST BEAUTIFUL FORM: RELIFE IS SUSTAINABLY PRODUCED AND IMPRESSES WITH ITS PARTICULARLY AESTHETIC TEXTURE.

40 percent of the pattern is made from recycled PET bottles and is available in the colours white, natural, taupe and anthracite. Its colour hues make RELIFE the perfect fit for a neutral interior.

EMBRACE COLOUR! INTENSE SHADES HAVE AN INSPIRING EFFECT. THEY PAVE THE WAY FOR A FRESH, YOUTHFUL LOOKING FLAIR.

The DUOTONE basic fabric is striking with its comprehensive colour palette featuring 36 shades. The white back pleasantly subdues the colour intensity and stands out due to its high reflectance.

 Installation | on skylight frame

STUNNING SKYLIGHTS

The right sun protection can regulate the heat radiation promoted by skylights. Due to their special honeycomb pattern, DUETTE® honeycomb blinds have an insulating effect. Selected fabrics in the new collection also reflect the sunlight thanks to their white backing.

Many of the fabrics pleasantly darken the room. The use of a side guide profile helps the blackout effect here.

Combined, using DUETTE® honeycomb blinds as a daylight and blackout version creates the perfect round-the-clock system. It makes it easy to regulate the desired light incidence at any time of day.

Hanging | RELIFE, W2-6029, grey
Installation | Ceiling

In the winter garden at home

Winter gardens extend the living space and their aesthetic architecture gives them open views outside. The glass surfaces allow in sufficient sunlight but the temperature in a conservatory is difficult to regulate without the right sun protection. DUETTE® honeycomb blinds are the ideal solution for achieving perfect shading since the layer of

air between the honeycombs has an insulating effect: In winter, they hold the temperature for longer in the room while allowing in less heat in summer. They also provide privacy from prying eyes. Ceiling units are recommended for shading glazed ceilings. Their tension cord gives them their shape when hung horizontally or on a slope.

Type | 11-8700, fixed
Hanging | ELAN, W3-6018, beige
Installation | Adhesive set

Type | 11-8222, taut
Hanging | ELAN, W3-6018, beige
Installation | Glazing bead

Special shapes: individual and made to measure

Whether trapezium-shaped, triangular, square or rectangular - custom-made DUETTE® honeycomb blinds also shade special-shaped windows and make the living spaces of dreams a reality. They therefore provide the perfect privacy and sun protection for virtually any room. With their great diversity of colour, shape and model,

they offer huge scope for individual design choices - in the living room, kitchen and bathroom as well as in offices and commercial premises.

OVERVIEW: PRODUCT ADVANTAGES

A homely room atmosphere

The daylight variants of MHZ DUETTE® honeycomb blinds fill the rooms with a cosy atmosphere: Their special texture promotes dual light filtering, bathing the room in a gentle light even on sunny days. The lifting cords running through the

honeycomb are not visible, so that no irritating light shining in from outside detracts from the overall look of the product.

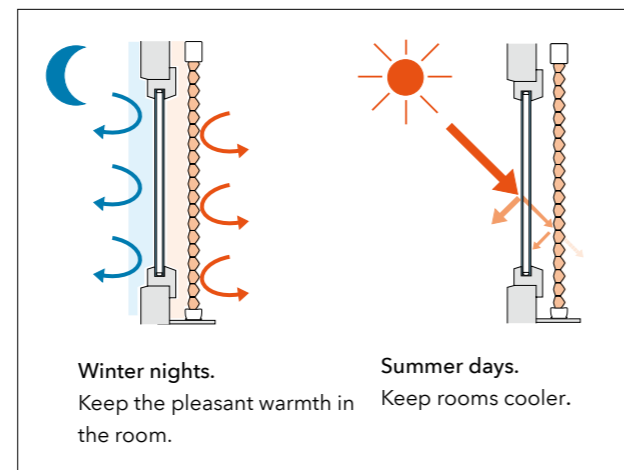

Especially energy-efficient.

Cosy warmth in winter and a pleasant indoor climate in summer - the energy-efficient properties of DUETTE® honeycomb blinds from MHZ are impressive. The special shaping of the fabric means give the blinds a particular effect on the window and in the room: Directly next to the window, a

heat insulating cushion of air is created within the honeycomb structure. These honeycomb cavities act like a down jacket. Heat loss at the window can therefore be reduced by up to 50 percent which saves on energy costs.

DUETTE FIXÉ, CLASSIC, ARCHITELLA ELAN honeycomb structures

Calculate your energy savings using the energy savings calculator at www.duette.de.

Relaxed with perfect room acoustics

The special honeycomb structure not only influences the temperature in the rooms, it also demonstrably reduces noise and reverberation. The ARCHITELLA ELAN fabric is especially recommended. Its double honeycomb structure ensures better acoustics - whether in living spaces, open-plan

offices, doctor's surgeries, classrooms, canteens or conference rooms. Unlike conventional acoustic measures, rooms can easily be retrofitted with DUETTE® honeycomb blinds.

PowerView®

Your intelligent sun protection: Allow daylight into the room, screen out sunshine or take advantage of privacy protection. One click and your Duette® honeycomb blinds will do exactly what they should. At the press of a button you control your sun protection products with effortless ease.

Via the optionally available scenario controller it is possible to program and automatically control room scenarios around the entire house. The Power-View® Pebble remote control is the shape of a palm stone. Beautifully designed, it is available in ten contemporary colours.

Pebble® scenario controller and wall-mounted controller

Remote control and scenario controller available in white or black.

OVERVIEW: TECHNICAL DETAILS

Freely moveable systems:
The taut blind 11-8222 is an impressive example of well-engineered MHZ technology: The sun protection is freely movable, both from the top and from the bottom, which means it can always be adjusted to suit your requirements.

Selection of types

Installation options for the freely moveable type 11-8222

Installation options in the glazing bead with footplates.

Installation option with adhesive set (with and without side guide) directly on the window pane without having to use a drill and screws, which can be removed without a trace.

If installation in the glazing bead is not possible, e.g. in the case of an extremely narrow glazing bead, the glazing bead bracket can also be used as a front installation or angle bracket (no dismantling) on the window frame.

Installation option on the window frame with window clip or clamp bracket (no dismantling) without drilling and screwing.

The right type for every window <

Various types and operation options are recommended depending on requirements and architectural elements. MHZ DUETTE® honeycomb blinds fit virtually any shape window and can be used in any architecture. Precision work to the millimetre, technical know-how and craftsmanship provide

solutions for skylights, special shapes, rectangular windows and doors - in damp locations, bedrooms or in winter gardens as ceiling systems.
